CAPABILITY STATEMENT

Independent technology advisory.

We advise. We connect. We stay accountable.

Pragnostic scopes what you need, builds the plan, and brings in the specialist firms that deliver it, from 100+ suppliers through our national distributor partners, with no preferred vendor. **We don't build, install or manage technology ourselves.** The name is the strategy: pragmatic advice, from plan to renewal, and complete vendor agnosticism.

WHO WE BRING IN

Cybersecurity 01
Endpoint detection, email security, SIEM and 24/7 SOC monitoring, from the security firm that fits your risk profile.

Compliance Readiness 02
Compliance consultants and outsourced CCO support for written programs, Reg S-P vendor oversight and investor DDQs.

Penetration Testing 03
Independent testers scoped to what examiners and allocators ask for, with time planned to fix findings.

Managed IT & Microsoft 365 04
The MSP or cloud specialist that fits your size, with Microsoft 365 administration and hardening. Scope, service levels and exit terms checked before you sign.

Communications Archiving 05
Archiving that captures email, chat and mobile, from the vendor that covers every channel your people use.

Connectivity & Infrastructure 06
Fiber, SD-WAN and broadband carriers. Orders placed early so the carrier can have circuits live on day one.

UCaaS & Collaboration 07
Voice, video, messaging and contact center providers that fit your existing stack.

AI Enablement 08
We cut through the noise, ask the right questions and connect you with vetted implementation partners.

POTS Line Replacement 09
Carriers are retiring copper. We bring in a provider to move alarm, elevator and fax lines first.

Mobility & Wireless 10
Business mobile, fixed wireless backup and in-building coverage, sourced across carriers.

Physical Security 11
Cloud video surveillance and access control. One provider across every location.

Vendor Advisory 12
Skip the RFP circus. We shortlist, vet and negotiate the right fit for your business.

MODULAR BY DESIGN

No single supplier runs everything.

Each layer comes from the firm best suited to it, so you can swap one without disrupting the rest.

SWAP ANY LAYER

Security | Compliance | **Managed IT** | Connectivity | UCaaS | AI

HOW WE WORK

01
Discovery
Your business, vendors, deadlines and goals. No forms, no RFP.

02
Plan
A prioritized plan across your whole stack, and which kind of specialist firm each piece needs.

03
Specialist match
We shortlist and vet specialist firms and negotiate on your behalf. Options, not mandates.

04
Advisor and escalation point
The specialist firm delivers. We make the hand-off, join the kickoff, stay your escalation point, and review each contract before it renews.

INDUSTRIES SERVED

We work with growing firms of every kind. Our specialty is hedge funds, private equity, RIAs, family offices, emerging managers and law firms. Also: accounting and professional services, healthcare practices, real estate and property, and multi-location businesses.

Specialty

- Hedge funds and alternative investment managers
- Private equity and venture capital
- RIAs, wealth managers and family offices
- Emerging managers
- Law firms

Also

- Accounting and professional services
- Healthcare practices
- Real estate and property
- Multi-location businesses

Miami · New York · Connecticut · Nationwide

WHY PRAGNOSTIC

- **Vendor-agnostic**
  No preferred supplier. We recommend what is right for you.
- **Independent**
  No product to sell, and not tied to any one MSP, security firm or carrier.
- **Modular by design**
  Swap one service without disrupting the rest.
- **We stay accountable**
  Your advisor and escalation point for every firm we bring in, through renewal.
- **A regulated-firm standard**
  We know what examiners and allocators ask for, and we bring that rigor to every client.
- **Broad supplier access**
  100+ suppliers across security, managed IT, connectivity, cloud, mobility and AI.

WAYS TO WORK WITH US

Advisory engagement
A defined piece of planning, such as a technology plan for a launch, a move or a new office.

Projects
One-time work such as running an RFP or a vendor selection.

Ongoing advisory (retainer)
A standing technology advisor in the fractional-CIO style, covering vendor oversight, escalations and renewal reviews.

Request a consultation

Tell us what's coming up. We'll tell you where you stand and which specialist firms fit. No commitment.
