INDEPENDENT TECHNOLOGY ADVISORY

The right technology. Any vendor. One accountable advisor.

Pragnostic is an independent technology advisory firm for growing firms, with a specialty in financial services and law. We give pragmatic advice, from plan to renewal. We scope what you need, build the plan, bring in the right specialist firms (MSPs, security firms, penetration-testing firms, compliance consultants and carriers) from 100+ suppliers through our national distributor partners, negotiate on your behalf, and stay your advisor and escalation point. **We don't build, install or manage technology ourselves, and we have no product to sell, so our advice stays independent.**

HOW WE WORK

01
Discovery
Your business, vendors, deadlines and goals. No forms, no RFP.

02
Plan
A prioritized plan across your whole stack, and which kind of specialist firm each piece needs.

03
Specialist match
We shortlist and vet specialist firms and negotiate on your behalf. Options, not mandates.

04
Advisor and escalation point
The specialist firm delivers. We make the hand-off, join the kickoff, stay your escalation point, and review each contract before it renews.
